

*Spearfish Parks and Recreation
Memorial Tree Program*

Updated January 2021

The Memorial Tree program will be administered by Spearfish Parks and Recreation Department under the direction of the Parks, Recreation and Forestry (PRF) Superintendent. Participation in the program is voluntary and subject to the discretion of the PRF Superintendent or his/her designee.

Description

The Memorial Tree Program is a way for members of the community or visitors to memorialize and honor the memory of a friend or loved one within the City of Spearfish park system. There are no eligibility requirements for participation.

Locations

A list of approved Planting Locations will be provided by Spearfish Parks and Recreation. Site specific considerations include proximity to permanent structures, appropriate distance from overhead powerlines and underground utilities, lines of sight, future development plans, park usage, soil type, etc.

Species/Size requirements

A list of approved Memorial Tree species will be provided by Spearfish Parks and Recreation. The approved Memorial Tree species list is subject to change and is based on a variety of factors including hardiness (Zone 5a, 4a, 4b, or less), reliability of available stock, and maintaining species diversity in the urban canopy. Due to the threat of Emerald Ash Borer (EAB), no ash species (*Fraxinus*) will be permitted. Trees selected will be no less than 1.5" caliper as measured 6" above the root flare and will be of nursery grade stock.

Planting seasons

Memorial Trees will be planted in either spring or fall. The Participant(s) must contact Spearfish Parks and Recreation prior to April 1 for a spring planting and prior to September 1 for a fall planting.

Spring planting season: Mid-April – early June

Fall planting season: Mid-September – early November

Planting

Planting trees is a process that requires specific knowledge of tree biology and may require specialized equipment. Therefore, Memorial Trees will be planted by Spearfish Parks and Recreation staff. If the Participant(s) wishes to be part of the planting process, Spearfish Parks and Recreation staff will determine the level of involvement and provide professional supervision of the planting.

Care and maintenance

Spearfish Parks and Recreation will care for and maintain the Memorial Tree as it would any other tree planted in the park system. This includes regular watering on an “as needed” basis, mulching, staking, caging, pruning, and weeding around the planting site. Memorial Trees will be guaranteed for 1 (one) year from the date of planting and will be replaced at no cost to the participant with a similar tree, should the tree fail to establish.

Cost

There is a one-time participation fee for the Memorial Tree program. The participation fee will be determined annually by the Finance Department. The participation fee covers the cost of the tree, labor, materials, and equipment required for planting, a Memorial Tree Plaque (optional), recognition on the City of Spearfish Tree Inventory (optional), and a Certificate of Participation.

Keepsakes

A personalized “leaf” will be added to the Memorial Tree Plaque (optional), the tree will be identified as a Memorial Tree on the City of Spearfish Tree Inventory (optional), and a Certificate of Participation will be given to the Participant(s).

FAQ's

- 1. Can I decorate my Memorial Tree?**
 - a. No. Any decorations placed in or around the tree will be removed by Park staff and either returned to the owner or disposed of in a proper manner.
- 2. What if my Memorial Tree dies?**
 - a. If your Memorial Tree fails to thrive within 1 year from the date of planting, the tree will be replaced at no cost to the participant. Trees that fail to thrive after 1 year may be reviewed by the PRF Superintendent on a case-by-case basis.
- 3. What if future development in the park requires my tree to be moved?**
 - a. If a Memorial Tree planting site creates an interference with future development plans, Spearfish Parks and Recreation will attempt to contact the Participant(s) and discuss options for relocation. Spearfish Parks and Recreation reserves the right to transplant or remove any Memorial Tree as necessary, at the discretion of the PRF Superintendent or his/her designee.
